

Accessing Your E-mail from the Internet via a Web Browser

This tutorial shows you how to access your e-mail account from the internet (Web Browser).

To Access Your E-mail Account from Internet Explorer

1. Type **www.domain-name.com/webmail** in the address bar.

2. Enter your full email address in the “Username” field.
3. Enter your Password in the “Password” field, and click “OK”.
